EnergyWire -- Thu., September 27, 2012 -- Read the full edition

1. HYDRAULIC FRACTURING: EPA, driller differ on new Pavillion water test results

U.S. EPA says a second round of test results released yesterday by the U.S. Geological Survey supports its preliminary finding that hydraulic fracturing contaminated groundwater in Pavillion, Wyo. But the major driller in the Pavillion area says USGS's decision to sample only one of the two wells upon which EPA based its conclusions shows serious flaws in EPA's handling of the case.

THIS MORNING'S STORIES

2. NATURAL GAS: GE 'betting big on gas' with new turbines
3. BUSINESS: Gas supplier calls foul on frack tech company's claims
4. REGULATION: Group asks Colo. governor to 'dramatically increase' drilling setback rules
5. NATURAL GAS VEHICLES: Infrastructure build-out faces 'three fundamental risks' -- report

6. EAGLE FORD: Gang violence chokes development of Mexican shale reserves

7. PENNSYLVANIA: House clears bill allowing leasing of state-owned lands

8. PENNSYLVANIA: Bill would create drilling health and safety panel

9. OIL: Rig auctions draw companies looking to sell equipment abroad

Clarifications

10. CLARIFICATION:

E&ETV'S ONPOINT

11. BUSINESS: Assn. of Climate Change Officers' Kreeger discusses impact of policy inaction on sustainability practices
